

NCMA Education & Research Foundation
CORNERSTONE SOCIETY MEMBERS

The concrete masonry industry is unique in that it was founded by individuals and individual families. The industry has grown for decades as a result of the energy, talent, commitment and strength of these individuals. These people are the personal cornerstones of our industry. When Max Hunt envisioned the Cornerstone Society, he saw clearly that the camaraderie among industry members would fuel the future success of the concrete masonry industry. Max knew that people matter! His vision gave birth to the Cornerstone Society. The Society is comprised of individuals who have donated a minimum of \$500 to the NCMA Education and Research Foundation Endowment fund. Our founders invite you to leave your personal print on the industry by joining them.
